LOG OF Z. R. 3.

AVERAGED 62. MILES AN HOUR.
INTENSIFIED AGITATION IN GERMANY.

Revision Of Treaty Sought.

(Reuter's American Service.)

Lakehurst, October 16.
The log of the Z.R. 3 shows that the airship covered 5,066 miles in her flight.
The average speed was 62 miles an hour, compared to the 29 miles made by R. 34 in 1919.
The fuel tanks of the airship were one quarter full when the vessel berthed.

Agitation In Germany.

(Reuter's Service.)

Berlin, October 16.
The successful flight of the Z.R. 3 has intensified agitation in Germany for the revision of the treaty arrangements, which require the dismantling of the Zeppelin workshops and hangars. A committee of the German Trade and Industry Congress has passed a resolution hoping that the works will be retained and further contribute to the peaceful union of the peoples.

Keenness Of France.

Paris, October 16.
"Le Journal" says that a company has been formed in France to acquire the Zeppelin patent rights. It says that the workshops at Friedrichshafen are prepared to deliver to France a dirigible similar to the Z.R. 3 as reparations in kind.

Symbol Of Peace.

(Reuter's American Service.)

Washington, October 17.
Mr. Curtis Dwight Wilbur, U.S. Secretary of the Navy, speaking at a luncheon in honour of the German officers of the Z.R. 3, said he would re-name the airship "Los Angeles" in honour of the angels' song—"Peace on Earth."

He wanted her to become a symbol of peace between the United States and Germany and all other nations of the world.

Commander Eckner echoed the hope that the airship would symbolise world peace.
President Coolidge afterwards received and congratulated the German airmen.

IMPERIAL PRESS CONFERENCE.

NEXT YEAR'S MELBOURNE MEETING.

TOUR OF COMMONWEALTH.

(Reuter's Service.)

London, October 16.
The third Imperial Press Conference will be held at Melbourne in 1925 by invitation of the Australian section of the Empire Press Union.

It will be attended by proprietors and editors of the leading newspapers throughout the British Empire. Delegates will be invited to participate in a two months' tour of the Commonwealth. The Right Hon. Mr. S. M. Bruce has promised his support. The New Zealand section of the Union and the Right Hon. Mr. W. F. Massey have invited the delegates to visit New Zealand en route to Australia.

SMUGGLERS.

CAN SHIP BE SEIZED?

JUDGMENT IN U.S.

(Reuter's American Service.)

New York, October 16.
The Federal Court has decided that a steamship cannot be attached by Government, when members of the crew smuggle liquor or narcotics into the United States without the knowledge of the owners of the vessel.

The judgment is a sequel to the case of the s.s. "Orunda." The court holds that the ship must be "in possession of guilty persons" with the consent of the owner to be subject to forfeiture.

MOROCCO.

PRIMO DE RIVERA'S PLANS.

GIVEN FULL POWER BY KING.

(Reuter's Service.)

Madrid, October 16.
General Primo de Rivera, whose policy of a partial evacuation of Morocco has long displeased the military party has now been vested with full responsibility for affairs in Morocco by King Alfonso to-day appointing him High Commissioner and Commander-in-Chief in Morocco.

General Primo de Rivera remains as Head of the Directory of Spain.

General Aizpuru only on the 14th inst. unexpectedly resigned his post of High Commissioner in Morocco "for reasons of health."

HUMAN ROLLER.

JOURNEYS FOR WAGES.

A few weeks ago a man started on a journey from Amsterdam to Marseilles by the strange method of rolling on his head, hands, and knees. He must make more than a million somersaults to reach his destination by January 12, 1925, and his speed is three miles a day.

In early days Kemp, a friend of Shakespeare and himself an actor, danced all the way from London to Norwich. He was several weeks upon the journey, but the actual time spent on the road was less

than nine days.

There are several cases of people who wagered that they would cover a certain distance without clothing. An amusing instance is that of the man who bought a cab and cut the bottom out of it. Inside the vehicle, he took off his clothes and stepped through the hole he had made on to the road; thus, he walked through London, unclad, and yet concealed from the public gaze.

About 150 years ago a man undertook to cross the Thames in a butcher's tray, balancing himself on his hands, to propel his strange craft. He accomplished his trip in

ELECTION CAMPAIGN.

STRENGTH OF LIBERALS.

PREMIER CONTINUES TOUR.

"Fake To Mislead Fools."

(Reuter's Service.)

London, October 17.
The Chief Liberal Whip, in an interview to-day, stated that the Party have at least 350 candidates. This figure compares with 454 at the last election.

Premier's Motor Tour.

Mr. Ramsay MacDonald, the Premier, continuing his tour to-day, motored from Manchester through the pottery districts en route to Birmingham.

Speaking at Congleton, he said everywhere it was evident that politics was beginning to move the hearts of the people. He declared that the uniting of the Liberals and Tories was a great tribute to Labour.

At Macclesfield, a party of women presented the Premier with a muffler and a lot of hankerchiefs "for Ishbel."

Enthusiasm was demonstrated throughout the journey—and was especially marked at Hanwell, where the Premier described the Campbell case as "a fake to mislead fools."

"No Wild Promises."

In contrast to the difficulty of hearing the speech of Mr. MacDonald at the Glasgow City Hall on Monday, which was broadcast by wireless, hundreds of thousands of listeners in throughout the country to-night heard most clearly a quiet election talk, which Mr. Stanley Baldwin addressed directly into a microphone at London broadcasting headquarters, where acoustics have been perfected.

Mr. Baldwin appealed for national unity, instead of class hatred. He said the Conservatives made no wild promises nor alluring claims. They were not patent medicine vendors. The Government, said Mr. Baldwin, needed a sufficient majority to avoid annual elections.

POLITICS IN GERMANY.

QUESTION OF NATIONALISTS.

NEGOTIATIONS BREAK DOWN.

(Reuter's Service.)

Berlin, October 16.
The protracted negotiations, with a view to including Nationalists in the Government have broken down.

A conference of the Chancellor and the leaders of the Government parties to-day agreed that further negotiations with a view to widening the basis of the Government did not promise success.

This decision was reached after the Centre party passed a resolution in favour of new elections if no other solution of the difficulty could be found.

LOANS FOR EUROPE.

AMERICAN AID SOUGHT.

BONDS VALUED AT BILLION.

(Reuter's American Service.)

New York, October 16.
The New York "Times" states that nearly all the New York banks doing international business have received requests for loans for European Governments, railway, hydro-electric and other industries.

The paper adds that if only a portion of the loans is granted, the American investment market will be called to place over one billion dollars worth of bonds within a few months.

MECCA.

WAHABIS ON GOOD BEHAVIOUR.

CALM AT JEDDAH.

(Reuter's Service.)

London, October 16.
The latest British telegrams from Jeddah state that only a few Wahabis have entered Mecca, and there is no mention of the sacking of the palace.

Apparently, the Wahabis have given some kind of assurance of good behaviour. Everything is reported to be quiet at Jeddah.

NEW AIR ROUTES.

LINKING UP WITH U.S.

CENTRAL AMERICA'S SCHEME.

(Reuter's American Service.)

Washington, October 16.
The Latin American Governments are discussing with United States officials the establishment of an air mail service linking up the capitals of the six Central American Republics and Cuba with the United States over a 2,000 miles' route.

**"Promise me you
will try Sanatogen
for your nerves"**

To many a man, the moment when he was persuaded to try Sanatogen has been a veritable turning point in his life—leading him from the perils of nervous exhaustion to a state of vigorous health and nerve power.

Dr. C. R. Naylor (M.R.C.S., Eng. L.R.C.P. Edin.), Bangalore, India, writes:

"I have found Sanatogen unequalled by any other food when the internal arrangements of the body whether in children or adults are in want of a stimulating nutrient. When mind and body are in any degree of nervous exhaustion, Sanatogen will be readily assimilated. In many almost hopeless cases of plague, where heart failure has been threatening, I have found Sanatogen helpful in getting the patient to turn the critical corner, and it has admirably aided my treatment of this fatal disease. I have no hesitation in stating that by the discovery of Sanatogen you have added a most powerful weapon to those already in the possession of every physician."

The Archbishop of Bombay, writes: "I use Sanatogen every now and then under my doctor's advice, and always derive great benefit from it."

Do you need Sanatogen? If so, do not put off taking it any longer.

Start taking Sanatogen to-day. Obtainable at all chemists and stores. It will energize every cell and tissue of your body, and give you a delightful feeling of vigour and freshness.

Plans for the Baby.

Plans are already on foot for the youngest Lasscelles. I hear (writes "Gadabout" in the "Daily Chronicle") that later this year he is to go with Princess Mary and Lord Lasscelles, and his "big brother" to visit Queen Alexandra, and will stay for some time at Sandringham. I believe Queen Alexandra was rather disappointed that the new arrival at Goldborough Hall was not a girl, but of course she has given a hearty welcome to the smallest member of the Royal Family.

A New Laird.
Aberdeenshire's newest laird is Mr. Davidson, a retired tea and rubber planter, who has purchased Huntly Lodge and the estate of 7,000 acres from the Duke of Richmond and Gordon, of which he is at present tenant (observes the "Star").

The purchase indulges the grower moor of Curley, and fishings in the Ythan, a river famous for the Scottish pearls secured from its mussels. Mr. Davidson has Parliamentary ambitions, and has unsuccessfully contested Central Aberdeenshire as a Unionist.

The Prince's Text.
The distinguishing feature of the Prince of Wales's ranch, for which he set sail recently, is the extreme modesty of his bungalow. It is quite small, consisting of lounge, dining-room, three or four small bedrooms, and a couple of bathrooms—a sort of glorified "log cabin."

What struck a visitor most, who was privileged to have lunch there two weeks ago (points out the "Morning Post"), was a text above the bookshelf in the dining-room. It is unframed, and reads:—"As for me and my house we will serve the Lord."

G.B.S. and Ben Nevis.
Mr. George Bernard Shaw is reported to be resolved to climb Ben Nevis before his Highland holiday comes to an end. It will be interesting (says the "Morning Post") to have Mr. Shaw's comment on the famous Ben. Byron described Lochnagar as "the most sublime and picturesque of the Caledonian Alps," and in his probable description of Ben Nevis Mr. Shaw is set the task of going one better than the anonymous writer who called it "Ossa piled upon Pelion."

Mrs. Asquith and the Photographer.
Mrs. Asquith is too spirited and energetic to be often fooled, but the other day she came on a man who refused to take her photograph (says the "Evening Standard").

He had a rule of photographing children only, and when Mrs. Asquith, who had admired his work, wanted to sit to him, he declared that she was above his age limit. But, pleaded Mrs. Asquith, I'm almost in my second childhood. However, the photographer remained obstinate.

Miss Macaulay's Choice.

When Miss Rose Macaulay goes for a holiday she takes only practical books to read—no novels! Her choice this year included the inch map of the neighbourhood to which she was going, a guide-book, and a series of pamphlets describing the villages (says Sewell Stokes in "T.P.'s and Cassell's Weekly").

The King's Guard.

The quarters at Ballater, where the King's Guard at Balmoral are stationed during their tour of duty at the castle, are probably the smallest and coziest barracks in the country. This year the duties fell to the King's Own Scottish Borderers from Edinburgh, who possess the privilege of beating up for recruits at all times within the Scottish capital without the permission of the Lord Provost—a right which, we are told, goes back to the days of the Battle of Killiecrankie.

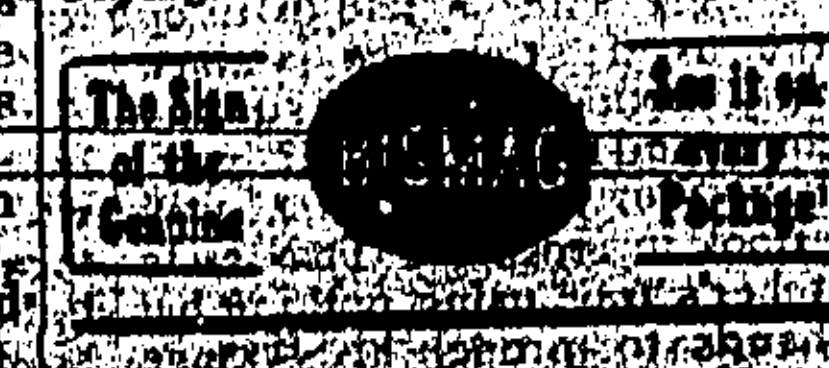

A Journalist's Play.

I have been asked, writes Sewell Stokes in "T.P.'s and Cassell's Weekly," to act in a play called the "Witch of Fleet Street," in which all the parts will be taken by journalists, among them G. K. Chesterton, who will appear as Famine! Bernard Shaw was to have been in the cast, but is now unable to act on the night. Some years ago, they tell me, he played in a similar production, and (as each actor wrote his own part) talked everyone else off the stage!

If You Suffer After
Eating

take two or three tablets of Bisurated Magnesia with a sip of water. This quickly, surely and safely neutralises the harmful acid, stops the food fermentation, and gives your stomach a chance to proceed with its work in a painless normal manner. Thousands of people know from their own experience that Bisurated Magnesia is the only thing that helps them—that it's the only thing that enables them to eat hearty meals of the good things they like without worrying about after effects. Bisurated Magnesia Tablets cost little at any chemist's, and they are so sure in effect that doctors and hospitals all over the world praise them and prescribe them. Bisurated Magnesia will rid you of all traces of stomach pain and weakness and will enable you to eat hearty meals of the things you like without fear of consequent discomfort.

Be sure to see the oval "BISURATED" trade mark on the wrapper which buying.

Magistrate Killed.

While motoring through Bletchley, Mr. Albert Vinson, of Belvedere, Kent, a county magistrate, was killed in an accident. A motor-lorry skidded in front of the car, which Mr. Vinson was driving, and he received fatal injuries. His wife and daughter, who were in the car with him, escaped with bruises and a shaking. The car was badly damaged.

Ocean Dishes.

Along the Great Barrier reef of Australia is found that curious sea beast, the dugong, and those who have tasted its flesh declare there is nothing else to compare with it for delicacy. Dugong flesh is now being cured like pork and exported to Britain. As population increases man turns more and more to the almost untapped resources of the sea for food. The amount of fish taken to-day is three times greater than it was fifty years ago. The war taught us that the flesh of whales is good food. The tongue and the tail of the fin whale are as good as beef. The octopus, formerly used only for bait, is, when properly cooked, a real delicacy. In Italy it is a favourite dish. Many seaweeds can be used either for salad or jelly-making, or can be cooked as vegetables. That called laver is popular in South Wales, and you may see it in the markets in Bath and Bristol. Bêche-de-mer is now being imported from the East of Europe. It is made from the trepang or sea cucumber, of which there are no fewer than thirty-six different varieties. Trepang is dried for export, and must be soaked before cooking. It is boiled for eight hours in salted water and then allowed to cool, after which it can be eaten either with meat gravy or made into soup.

FRETFUL BABIES

Are Quickly Comforted and Helped By
BABY'S OWN TABLETS.

Fretfulness in young children is usually due to stomach trouble. The use of soothing syrups fails to correct the trouble and is really harmful. It is not necessary because Baby's Own Tablets will soothe the stomach, allay the resulting fever and bring natural rest and comfort. Read this American mother's evidence: "My little girl, four months old, cried all day long," says Mrs. Oscar Campbell, of No. 141 Chestnut Street, Central Falls, R. I., "and was restless at night. She was troubled with indigestion and sour stomach and nothing seemed to help her. Finally, a friend recommended Baby's Own Tablets, and the very first I gave her made her rest easy. She seldom cries now and is better in every way. I advise all mothers to keep this valuable remedy in the house."

Parents can give Baby's Own Tablets to their little ones with perfect confidence. Because they are guaranteed absolutely pure and free from harmful drugs. Pleasant to taste and easily administered to the children. They soothe the stomach, reduce fever, regulate the bowels, soothe colic, soothe teething, soothe all the troubles of the young child. Your doctor will tell you that the only safe way to give your child medicine is with Baby's Own Tablets. They are sold everywhere. Write for a free trial bottle to Dr. J. C. Williams, 141 Chestnut Street, Central Falls, R. I., U.S.A.

Don't Scratch ITCHY SKIN!

SCRATCHING a fiery, itching skin is not only embarrassing, but dangerous. It is by far the greatest cause of minor spots, pimples and rashes spreading and developing into stubborn disease.

Why endure skin torment when a little Zam-Buk will bring blessed relief in cooling and soothing the angry, inflamed surfaces.

Zam-Buk, a unique healing balm compounded from certain rare heral extracts, is so pure and refined that it is readily absorbed by the tiny pores. Thus it kills and expels disease germs even in the innermost tissues, removes all trace of poison and corruption, and restores a clear healthy condition of skin.

SOOTHE & CURE

ZAM-BUK is obtainable in hand-size boxes of medicine dealers everywhere. Direct from agents: Messrs. Watson & Co., (China) Ltd., (Keechen Road), Shanghai.

BUTCHERY IN CANTON.

The Canton Government has taken drastic steps to deal with the Merchant Volunteers, whose mischievous activities in recent weeks have now ended in their undoing," says the "Canton Gazette" of Wednesday. Drastic is too mild a term to apply to the steps taken by Dr. Sun Yat-sen's military hirelings to suppress the merchants' movement to obtain delivery of the arms, imported on the s.s. "Hav," for which they have paid and for which an import permit was issued by one of Dr. Sun's accredited officials.

On Tuesday, a proclamation was issued by the Civil Governor, Mr. Hu Han-min, and countersigned by General Yang Hsi-min, commander-in-chief under martial law, and three other Generals (Hau Chung-chi, Tan Yen-kai and Fan Shek-sang)—a proclamation

by which "the Merchants Volunteer Corps was ordered to be dissolved." To the casual reader, the proclamation conveys little more than the usual official manner in which such organisations are dissolved. With the proclamation *per se* we have no quarrel. If the Canton Government does not wish to countenance the Merchants Volunteer Corps, it is at perfect liberty to dissolve it. The means to attain this end, however, recall the worst acts of the Lenin regime in Russia.

It is well-known that the Volunteers were very poorly armed compared to the 40,000 soldiers at Sun's command. It would, therefore, have been an easy matter to surround the Volunteers and gain an almost bloodless victory.

Dr. Sun Yat-sen, however, has read the writing on the wall and is well aware that it is not only the Merchants' Volunteers who have tired of his rule. The "Canton Gazette" states that "the Merchants Volunteer Corps had been engaged in secretly distributing circulars calling upon the shops and business houses to start a general strike from Friday last, in order to bring the Government to its knees and give over control of the city to the self-constituted champions of the people, to wit, the Merchants' Volunteer Corps headed by Chan Lim-pak, commander of the Hongkong and Shanghai Bank, and his hirelings."

The official organ, while presumably paving the way for whitewashing those responsible for Wednesday's massacre, admits the real cause of Dr. Sun's fears. The strike of the merchants was more to be feared than the alleged insidious activities of the Volunteers. "We must teach the Canton rabble a lesson, said the 'compleat Bolshevik' Sun Yat-sen. We will pre-suppose violent opposition and strike first"—orders to this effect were probably given. At any rate, all reports to hand go to show that Dr. Sun's hirelings opened the attack and having driven off the Volunteers proceeded to loot the town.

During and after the fighting, it appears that fires were started by the troops of the President. It is not likely that the world will ever learn the number of innocent victims of Wednesday's slaughter—a mild enough word in all conscience to describe the cold-blooded murder of shop-keepers and their families for going on strike—a method of protest which, Dr. Sun and his precious son, Mayor Sun-fu, tacitly commended in the recent Shameen affair. Had any genuine attempt been made to open the shops and disarm the Volunteers by a show of force, one might be able to find some excuse for retaliation, if the soldiers had met with opposition. All accounts, however, tend to the belief that the Canton affair was butchery as cold-blooded as it was calculated.

Bag-Snatchers.

"There is a lot of bag-snatching from ladies going on." This was the answer given in the police court by Sub-Inspector Spear to a question by Mr. R. E. Lindsell, Magistrate. The occasion was the hearing of a charge against a Chinese youth of stealing a bag from Mrs. P. W. Green, of No. 206, The Peak, while she was walking along Battery Path with her husband. One who has witnessed a few of such robberies thinks the following tips might be of use.

The thief generally attempts to take the bag on the run and as he is generally a small boy, the number of whom met on the run in the course of a walk is legion, he does not attract particular attention. If the hold of the bag is not lost at once, the thief fails in his object; if it is, he is out of sight almost before his victim has had time to realise that she has been robbed. The best means of frustration, of course, is to give the bag strings a twist round the wrist; to effect a capture one should be prepared to put one's foot forward to trip up suspicious characters who run in too close proximity. If any lady having such an experience keeps her presence of mind enough to do this and is able to get some one to hold on to the boy, Mr. Lindsell has indicated by the exemplary punishment he meted out to the Battery Path thief his willingness to do his best to make this kind of robbery less common.

Local Racing Rules.

Interview of the discussion with regard to holders of totalisator and cash sweep tickets, on ponies subsequently disqualified, not being made to suffer for a rider's indiscretion, it is possible that the Hongkong Jockey Club may change the present rules. It has been the custom in Hongkong, for some years at any rate, to pay out on the pony first past the post. Curiously enough, there is no clause in the local rules of racing justifying such action. There is, however, we understand, some clause to this effect in the Totalisator and Cash Sweep Rules—to be seen by the inquisitive—posted on the course during meetings. Neither the committee of Tattersalls, nor the Jockey Club (English) committee, recognise betting "first past the post." On most courses in China, in the case of an objection or an enquiry by the Stewards, a flag is hoisted near the judge's box and payment is withheld until instructions are given by the Stewards. The objections to paying "first past the post" are so obvious that one example will suffice. We will presume Mr. X—has backed his mount for \$100. Towards the end of the race his quick brain shows him that he can win or get a place by "taking a chance." He does so, fully aware that if he bumps into another pony in doing so, his mount will probably be disqualified; but his tickets on the totalisator will be safe. There is no need to labour the point. Suffice it to say that the proposed alteration of the rules will be welcomed by all who love the game for the game's sake.

LOCAL AND GENERAL.

The loss of jewellery valued at \$200 from her room at the Carlton Hotel has been reported to the police by Miss M. Tyrrell.

The issue of two-thirds, namely, 16 million kronor, of the 24 million kronor Dawes Loan, allotted to Sweden, was over-subscribed within half-an-hour.

The departure of H.M.S. "Weymouth" for Hongkong, under the command of Captain B. H. Ramsay, with a relief crew for H.M.S. "Despatch," has been deferred to November 4.

Picked up in the streets in an unconscious condition, a European who gave his name as Vick and who describes himself as an unemployed ship's engineer, has been taken to the Government Civil Hospital for treatment.

CHEATING.

EUROPEAN FIRM PRO-

SECUTE CHINESE.

FOUR WEEKS' R.L.

"You know the customs too well to be able to present a forged order and cheat a European firm," rejoined Mr. A. E. Lindsell to a Chinese youth who was up before him this morning on a charge of obtaining \$2 worth of goods from Messrs. Lane, Crawford's, with intention to defraud and who, in mitigation of his offence, pleaded that he had not been in the Colony long and was, therefore, unacquainted with the customs of the place.

Mr. S. J. Jordan, secretary to the company, explained that defendant was a coolie who ran errands between the various departments. He procured an order purporting to have been issued by a lady employee and presented it to one of the departments.

His Worship remarked that it was a most brazen bit of cheating and imposed sentence of four weeks' hard labour.

LOCAL AND GENERAL.

Before Mr. E. W. Hamilton at the Kowloon Magistracy, this morning, three rich farmers were summoned for not keeping their richies in proper repair. They were each fined \$5.

Whilst working on board the s.s. "Lake Gitan" yesterday, a Chinese fell into one of the holds, injuring himself in the head and legs. He was picked up and sent to the Kwong Wah Hospital.

A farmer near Morton, Washington, has harvested a bumper crop of wheat, the original seed for which was obtained from an Egyptian tomb four years ago. It has proved so prolific that sufficient is available in the present year to plant fifteen acres, yielding 48½ bushels per acre. The grain is white and very hard.

It is calculated that local pacts have been reached between Conservatives and Liberals in the majority of the seventy divisions which the Labourites won at the last election through a split vote. The Liberals have withdrawn in thirty-eight cases and the Conservatives in six. Thirty-nine women candidates have already been adopted. This is five more than last year.

Before Mr. E. W. Hamilton, at the Kowloon Magistracy this morning, a fortune-teller, aged 40 years, named Tsui Sui-hing, was charged with receiving and harbouring an unmarried girl under the age of 21 years, named Wong Ho, at No. 42, Square Street, on October 1, Lau Kwai-sang alleged to be a confederate, was arraigned for receiving a pair of gold mounted retian bangles valued \$18 from Wong Ho (the girl) and converting them to his own use. After preliminary police evidence had been heard, the case was adjourned until October 22.

SOCIAL AND PERSONAL.

A son was born yesterday to Mr. and Mrs. H. Green of No. 1 The Peak.

The funeral of the late Mr. Wei Wah-leon, J.P., takes place at 2 p.m. to-morrow, from his residence, 26 Peel Street.

A Havas message from Marseilles says that Mr. Wei, the Chinese Minister, has arrived there, and is going to Paris.

A Tokyo telegram announces that Mr. Voneiro Ito, President of the Nippon Yusen Kaisha since 1920, has resigned. His resignation is in connection with the recent trouble among the company's land staff.

A Delhi message of September 30 states: Mr. Gandhi's condition of health has been causing some anxiety. He, however, passed a quiet night. Every effort has been made to stop people coming to see him.

LOCAL AND GENERAL.

The following appointments to the China Squadron have been notified: Surgeon Commander G. B. Cockcroft to H.M.S. "Weymouth" (for passage out, and to H.M.S. "Despatch" from date of joining; Commissioned Boat-swain W. H. Riddells to H.M.S. "Ambrose" and Boat-swain R. W. Rouse to H.M.S. "Titanic."

The following forthcoming weddings are announced: Mr. Reginald Albert Cambridge, Registrar Bank of India, Australia and China, to Miss Audrey Josephine Howe, Glencoe Lodge, Vancouver; Mr. Albert Lewis Jones, chief officer of the s.s. "Huichow," to Miss Nancy Lewis, en route from England by the s.s. "Hakozaki Maru" (Mr. J. M. Pinna, of No. 7, Chit Wo Street, Ysui-mai, to Miss Maria Sousa, of No. 466 Connaught Road.

(To the Editor of the China Mail.)

Sir,—We shall be glad if you will correct the statement in your paper of to-day's date in respect of the fighting in Canton reading thus:

"Soldiers were posted on the top of the Sun Building. The correspondence which we have just received from our Canton Branch reveals that the statement is unfounded. Our friends from Canton, and one of our employees coming down from Canton also repudiate the statement. We shall thank you if you will have it corrected.

CHINESE CLUB SWEEP.

(To the Editor of the China Mail.)

Sir,—It has come to my knowledge that it is generally believed that the Chinese Club has paid to Mrs. V. Chan, the owner of ticket No. 03066 in the Chinese Club Sweep on the Hongkong Derby 1923, the value of the first prize, I shall be much obliged if you will kindly allow space in your paper to make it known that such is not the case.

The Chinese Club, through their solicitors, Messrs. Lo and Lo, wrote on the 22nd ult. in reply to a letter demanding payment of the prize money made on behalf of Mrs. Chan, stating that the Chairman and Committee of the Chinese Club "do not admit that Mrs. Chan has any right to claim payment of the sum of \$50,400, the first prize in the Sweep."

It may be of interest to your readers to read the following letter written by my firm to Messrs. Lo and Lo, the solicitors for the Chinese Club, on September 23, 1924.

Messrs. Lo and Lo,
Dear Sirs,—Mr. Sydney Ng Quinn has handed to us your letter dated the 22nd instant, written on the instructions of the Chairman and the Committee of the Chinese Club, in reply to his letter to them of the 20th instant, in which you state that your clients do not admit that Mrs. Chan has any right to claim payment of the sum of \$50,400, the first prize in the Chinese Club Sweep on the Hongkong Derby, 1923.

In reply, we beg to inform you that our client, as stated in his letter of the 20th instant, attend with Mrs. Chan at the office of the Secretary of the Chinese Club on the 24th instant at 12 noon in order to comply with condition 1 of the Sweep Regulations. This notwithstanding the fact that the Committee of the Club have failed to observe each and every condition of such Regulations, except condition 2.

The Committee of the Club have broken condition 1 by paying to Chik Sung-ling the value of the first prize without the intervention of the Sweep Leader or Sweep Member and without the endorsement of the ticket or the endorsement of the ticket. They have broken condition 4 in that they have paid out to Chik Sung-ling without proof by the Sweep Member who sold the ticket that he sold ticket No. 03066 to Chik Sung-ling, and they have paid out the prize money without any adequate indemnity. The indemnity or guarantee given is merely a protection for the guarantors and to one else, and was prepared with an entire disregard for the rights of any other person, and this notwithstanding our letter of July 21, 1923, which is as follows:

Hongkong, 21st July, 1923.
The Hon. Secretary, The Chinese Club, 66 Queen's Road, Central.
Dear Sir,—We understand that at the General Meeting of the Members of the Club this afternoon the question of the payment of the first prize in the Derby Sweep is to be discussed.

We beg to point out to you that although Mrs. Chan has been unable up to the present to find her ticket No. 03066, the same may still be found having regard to the circumstances under which it was lost, namely, owing to the removal from No. 5 Arbutnot Road to No. 9 Robinson Road.

We notice that by Clause 4 of the Sweep Regulations payment can only be made in the case of a lost ticket on substantial security being given. We suggest that should the meeting decide to pay out the money to Chik Sung-ling, substantial security for repayment should be given in case the ticket is afterwards produced.

We shall be glad if you will cause the contents of this letter to be brought to the notice of the meeting.—Yours faithfully, (Sgd.) Geo. K. Hall Brutton and Co.
In accordance with this letter I attended at the Secretary's office of the Chinese Club with Mrs. Chan and Mr. Ng Quinn at the time stated and found the office in charge of a clerk. Later, Mr. Mr. K. Lo, the Club Solicitor, attended and stated (inter alia) that the Club had not got the money. [Had the indemnity been an adequate indemnity as provided in

WAR MEMORIAL.

WORK MAY SOON START ON
HOSPITAL.

REASONS FOR DELAY.

It is hoped to be able to start work this winter on the Hospital, the erection of which is part of Hongkong's War Memorial scheme. This information was gathered by a "China Mail" representative who called on Messrs. Palmer & Turner, and enquired why it was that after the site had been cleared some months ago there was little indication of work starting.

The "China Mail" was informed that at the request of Sir Paul Chater the final plans had been sent to England and had been examined by him and the late Mr. A. G. Stephen. They were now on their way back to Hongkong and would have to be considered by the War Memorial Committee before work could commence. Sir Paul Chater had suggested an amendment with regard to the elevation.

The Site Granted.

The site of the Hospital was granted by the Government and is above the new motor road to the Peak. It comprises 12 acres, is about 700 feet above sea level and patients should have a fine view from it of the Harbour and of Happy Valley. It will have the advantage of being shaded from the evening sun and of being in a position to catch the health-bringing south-easterly breezes through Middle Gap.

It will be remembered that about a million dollars were subscribed for the purpose of erecting and furnishing the Hospital, towards which the Government granted \$200,000, as well as the site.

Sir Paul Chater, in outlining the scheme as Chairman of the Hongkong War Memorial Committee, said the reason for the proposed erection of an up-to-date Nursing Home on the Higher levels was that it was felt that such a home would be a great boon to the Colony and would be of great service to the community in assisting to minimise the death rate and in restoring to health those who fell sick.

Chiefly Lay Management.

It would be managed by a Board of Directors composed of lay members of the community with one or two Government officials serving on it; the staff to consist of resident doctor and resident trained nurses, private practitioners to be allowed to attend patients. Accommodation was to be provided for 35 single rooms and there would be two free wards of 10 beds each which would be named after the late Mr. Granville Sharp and his wife Matilda Sharp, in accordance with the terms under which a grant from that estate was made.

Rule 4 of the Sweep Regulations of the Chinese Club and drawn with a view to the lost ticket being produced for payment, as asked for in my firm's letter of July 21, 1923, it would have protected the owner of the ticket in case the ticket was found, as has been, and the money could have been obtained by the Chinese Club from the Tabacqueria Filipina, the guarantors, and paid to Mrs. Chan.

Your readers are doubtless aware that gambling debts cannot be recovered in a Court of Law (an unpaid debt in a sweep is a gambling debt). By the indemnity as drawn the guarantors agree to reimburse the Club if the Club be "by law compelled to pay the \$50,400 to some other person." This, as I have stated, is an impossibility.

This indemnity is a worthless document, for in the way in which it is framed it imposes no liability whatever on the guarantors. This indemnity was prepared by Mr. M. K. Lo, the Solicitor, not only for the Chinese Club but also for the guarantors, regardless of the fact that the ticket might be produced and a claim for the prize made in the ordinary way. He also received the prize money from the Committee of the Chinese Club and paid it away on the instructions of Chik Sung-ling. This prize money was paid out within three months of the award, although the Club had made it a condition "that the Club will not be bound to act according to the award of the arbitrators and that the Club reserved all its rights and that the position of the Club in law shall be deemed to be absolutely the same as if no such arbitration had taken place."

It will be appreciated therefore that Mrs. Chan, as the owner of the winning ticket, cannot obtain money by law, but is dependent entirely on the honour of the Members of the Committee of the Chinese Club.

SITUATION IN CANTON. FURTHER LOOTING YESTERDAY. UGLY RUMOUR RE SOLDIERS.

(From Our Own Correspondent.)

Canton, October 16.

About fifty killed and over a hundred wounded are the approximate casualties suffered by both sides in the Canton civil war. It is impossible to estimate the number of non-partisans who were either shot down or who perished in burning houses or through trying to break through cordons. Over a thousand houses have been burnt down. Damage and loss in actual terms of money defy assessment. When stock begins to be taken, now that things are quietening down, the havoc will be proved to be immense.

Fighting ceased at 6 p.m. yesterday (Wednesday). As the day grew on the Merchants Volunteers retired in an orderly manner towards the north-west outskirts of the city. By sunset they had vanished. It is surmised that they fled from the city or discarded their uniforms. As a result the Government issued an open order for all houses to be searched for arms and Volunteers.

Rumour attributes a move by Mr. Chan Lim-chung, a brother of Mr. Chan Lim-pak, compadre to the Hongkong and Shanghai Bank and commandant of the Merchants Volunteer Corps, as being responsible for the cessation of open hostilities. He is said to have communicated with Lieut.-General Liu Hsiang-chiu, commanding the 2nd Yunnanese division, offering to surrender the arms possessed by the Corps.

Further Looting.

Looting continued to-day. A ruthless house-to-house search has been carried on by the anti-merchant troops and everything of value seized whenever possible. Fabulous sums have been offered for transport of valuables to Shamen and personal effects to Hongkong and Macao steamers.

As much as \$20 a day can be obtained by an Indian watchman. People who have dared to leave their homes with luggage have been stripped of all they carried before boarding departing steamers.

An aeroplane flew over the Western Suburb to-day, the better to impress the Merchants of the Government's strength.

As the fires have gradually burnt themselves out, scenes of ruin meet the eye all over the Western Suburb.

Wu's Red Troops.

The Yunnanese still claim that they took no part in the fighting. However, the civil population declares that Cantonese contingents under Generals Li Fook-lam and Hsu Shung-chu took active part in the storming of the street barricades, as did the Red Army under Wu Te-chen and a detachment of cadets from Whampoa.

Another rumour is that a number of barbers and tea-

house employees were in collaboration with the Government troops, having posted themselves inside the city to harass the Volunteers. They are accused of having assisted in setting the city on fire.

In the search for arms and Volunteers, some of the regular troops are alleged to have demanded from shops which were known to have Volunteers on their staffs, a sum of \$7 each as hush-money.

Volunteers Retreat.

Yesterday's day-bout brought the news that the Volunteers had retreated from the Western Suburb. Last night's steamers were full of refugees, some of them without even passage money or luggage. There were individuals who, in a very pitiable condition, had come down on the offchance of picking up friends, while others had lost relatives and all they possessed.

Business is, of course, still at a standstill but it is thought that the trouble is over as the Merchants' Volunteers are incapable of offering further resistance. Now the work of reorganisation and setting the commercial interests in motion again, will proceed, remains to be seen. An ugly rumour is that the Government troops were virtually promised free looting if they subdued the Volunteers and nobody will come forward to make terms if outlawa continues.

Help From Hongkong.

At a special committee meeting of the Hongkong Chinese General Chamber of Commerce held yesterday it was mentioned that the Hongkong Government would not discourage attempts at sending up provisions and giving charity to war victims but a strictly non-partisan attitude would have to be adopted.

Steps will be taken to render humane assistance and delegates had gone up to inquire. The assistance of the Tung Wah Hospital and the various district committee associations would be invoked.

Strike Continues

(From Our Own Correspondent.)

PAKKAI, KONGMOON, Oct. 16

The general strike continues at all ports in this vicinity but nothing untoward has developed. A telegram has been received from Wu Han-min, acting for the Generalissimo, announcing the "suppression of the rebellious Merchants Volunteer Corps" in Canton.

News of the fighting in Canton has already reached this port. It was first stated that the city was on fire in nine places.

Another rumour is that a

Another bag-snatching case has been notified. Miss Colleson, of No. 4, Basilea, Lyttleton Road, informed the Police yesterday that her handbag was snatched from her on Wednesday.
She was walking along Babington Path when a young Chinese took the bag from her and made off. It contained money and some papers.

QUEEN'S THEATRE.

OWEN MOORE STARS IN COMEDY.

"Love is an Awful Thing" starring Owen Moore, the King of Farce comedy, in this riotously funny feature, is the attraction at the Queen's Theatre beginning to-morrow for a four days' run. For weeks the Select production force has laboured tirelessly in an effort to reduce its newest and greatest Owen Moore feature to a maximum of 5000 feet of film. Every situation not absolutely necessary has been eliminated; every incident shortened to its limit. Even the titles are confined to a minimum. And still there remains 7,000 feet of film. That is but one indication of the bigness of "Love is an Awful Thing."

Captain F. Smith, of the "Sutai," has gone master, "Hosam."
Captain C. H. Turner, of the "Hosam," is on leave.
Mr. A. J. Courtney, third engineer, "Kwangsing," has resigned.

NOTES AND COMMENT.

TO-MORROW'S GAMES.

[By "Dutchie,"]

The following is the programme for to-morrow:

FIRST DIVISION.

Kowloon v. Club Kowloon
Police v. Surreys Chinese
Tamar v. China "A" Sookumpoo
China "B" v. R. A. Navy "A" ground.
Kick off at 4.45 p.m., sharp.

SECOND DIVISION.

St. Josephs "B" v. Sacred Heart
China "A" v. Club Recreio "A"
Surreys v. St. Josephs "A"
Club v. Drums Club ground.
University v. Club Recreio "B"
Navy "A" ground.
Kowloon v. China "B" Kowloon ground.
Kick off at 3.15 p.m. sharp.

It should be noted that the grounds for the "Tamar" v. Chinese and R.A. v. Chinese games have been changed over.

The Club will be worthy opponents for Kowloon, and a very interesting game should be seen. Last Saturday's result flatters the Club for they were up against very weak opponents. On the other hand, to beat the Gunners by three clear goals gives one the impression Kowloon are a team to be reckoned with. Anyway my money is on them.

Police receive the Surreys and should, I think, share points. They are improving every game. The soldiers will have Eaton back in the team for this game.

At Sookumpoo the crowd will be there to cheer on the Chinese "A", and judging from form, I should think they will annex the points. The sailors have yet to find their form.

The Gunners will have no difficulty in defeating the Chinese "B" team, unless the latter are considerably strengthened.

The College "B" team and the Sacred Heart should draw, whilst the University should secure the points at the expense of Recreio "B" team.

The Surreys—St. Josephs "A" game should be very even with, I think, the soldiers just getting home.

Kowloon will beat "China" "A", whilst the Club will be lucky if they manage to share the points with their opponents.

The game between China "A" and Recreio "A" will be worth seeing, providing there is no feeling shown. The result will be in doubt right up to the last minute.

On Armistice Day, a Grand Charity Football Match has been arranged between teams representing the Service and the Rest, Hongkong. The game will be played on the Club ground and the net proceeds will be handed over to the "Poppy Day Fund" Sub-Committee.

Teams For To-morrow.

The following teams have been selected to represent the Hongkong Football Club in their League matches on Saturday:

1st Division v. Kowloon on Kowloon ground, kick-off at 4.45 p.m.: G. S. Rodger; W. G. Gerrard (capt.) and C. E. Bishop; A. Mair, J. Stewart and H. T. Buxton; J. Watson, A. S. Forryth, H. G. Howard, F. Evelyn and W. J. S. Key. Reserve: S. O. Hill.
2nd Division v. Drums on Club ground, kick-off at 3.15 p.m.: G. Angus; R. Paterson and A. H. Oewick; C. Conway, A. Ferguson and J. Gardner; R. Bell, T. Pile, J. A. Douglas, Roberts and J. Dixon. Reserve: A. F. Paul.

The following have been selected to play for the Kowloon F.C. in their League engagements on Saturday:

1st Division v. Club on the Kowloon ground, kick-off 4.40 p.m.: A. Duncan; F. Wheeler and T. L. Knight; A. W. Turner, J. McKelvie (capt.) and H. Wheeler; F. Clemo, B. Vickers, B. Pasco, R. H. Nash and S. G. Hayes.

2nd Division v. South China "B" on Kowloon ground, kick-off 3 p.m.: J. Beach; B. Rasmussen and H. S. Prowse; A. W. Brown (capt.); W. H. Brown and S. Randle; V. Hart, W. L. Walker, A. Latham, J. McBride and W. Bilyar. Reserves: G. White, A. Kirby and F. Boas.

Cassambhoy.

HOCKEY.

H.K.H.C. v. U.S.R.C.

The following will represent the H.K.H.C. 1st XI at 5 p.m. to-day at the U.S.R.C. against the 2/4 Bombay Grenadiers:—P. W. F. Mills, C. L. R. Becher, G. H. Piercy, Rev. E. W. L. Martin, A. S. Hett, E. L. Sim, H. F. McMaster, G. B. Hett, W. J. Woodward (capt.), G. R. More, and B. D. Evans.

DEAL IN HERBS.

PURCHASER NOW CHARGED WITH RECEIVING.

A Chinese, named Li Wah, appeared at the Kowloon Magistrate's court, this morning, on a charge of receiving seven pieces of cinnamon bark and a quantity of ginseng valued at \$171 at 78, Lai-chikok Road, knowing the same to have been stolen or unlawfully obtained, between September 25 and October 16.

Defendant stated that he bought the herbs from a man at the door of his shop for \$23 and was unaware that it was stolen property. Mr. C. A. S. Russ defended. Sub-Inspector W. McWalter of Mongkok Police Station prosecuted.

Defendant was granted bail in the sum of \$500 and was remanded until Thursday next at 11.45 a.m.

When Walter Richards, 20, was charged at Gateshead with theft, it was stated that he appeared able to board trains travelling at high speed.

GRIFFINS.

S.S. "CHEONG-SHING" BRINGS "SUBS."

DRAWING THIS EVENING.

The Indo-China s.s. "Cheong-Shing" arrived here from Tientsin last evening with 90 subscription griffins consigned to the Hongkong Jockey Club and four griffins for private owners.

The vessel went alongside Messrs. Jardine, Matheson & Co's Western wharf early this morning and discharged the entire 94 head in 40 minutes. This is a record for any port with similar landing facilities, and reflects the greatest credit on the ship's officers and Mr. E. Rock, manager of the Jockey Club Stables and his band of helpers.
Drawing takes place at 4.30 this evening at Causeway Bay Stables.

DUMPING.

TWO JUNK-MASTERS IN TROUBLE.

Two Chinese junk-masters were prosecuted at the Marine Court this morning for dumping earth into that part of the harbour near the Cust Rock, off Kowloon Dock, Hungnam.
Following a report, two European sergeants from the Water Police Station were posted in a sampan and they gave evidence as to seeing earth being thrown overboard from these two junks last night. The junks are employed in carrying away earth from a building site at the Kowloon Dock. Fines of \$50 each were imposed.

CABLE FOULED.

DOUGLAS STEAMER HAS MISHAP.

As the "Hai Fong" from Swatow, Amoy and Foochow, was putting in to the Douglas Wharf at 11.30 this morning its anchor, when dropped to swing the boat round, got foul of the recently laid telephone cable to Kowloon which passes about 100 feet from the wharf. When the anchor was pulled in the cable was displaced but not damaged and is being replaced by the Telephone Company. The ship was delayed about an hour before getting alongside.

MOTOR ACCIDENT.

DRIVER IS DETAINED BY POLICE.

An accident occurred on Queen's Road, yesterday, as the result of which the driver of a motor-car belonging to Mr. Tsang Ki-lung of No. 10, Taiwo Street, was detained by the Police pending inquiries into a charge of alleged careless driving. A middle-aged Chinese was admitted to hospital after being knocked over by the car.

FLOTSAM AND JETSAM.

The P. & O. s.s. "Morea," which arrived from Shanghai reports sighting an abandoned Japanese junk at the northern entrance of Kii Channel. The Japanese authorities were notified by wireless from the ship.

On its way down here from Tientsin, the "Usedom" at 10 a.m. on October 15, sighted a capized junk. The position was—Lat. 23.19 N, Long. 117.31 E, Lamocks Lighthouse true 253, distance 13 miles.

COUNTY TREASURERS TELL
SORRY STORY.

The weather has played a sad part with cricket in 1924, says the "Athletic News." The season, now drawing to a close, has brought to most counties a depressing experience. The bad weather of 1923 has been followed by a further season of frequent interruption, so that the clubs that return a favourable account, financially, of 1924 will be few and fortunate.

Some of the clubs have suffered interference by rain in practically every home game in the County Championship, the principal source, of course, of match receipts.

Certain of the clubs could ill afford to lose ground, and the one bright feature of the season has been the loyalty of members and increase in their numbers.

The summer has shown, in fact, that first-class cricket retains all its appeal. Lancashire and Yorkshire, for example, drew the largest crowd that has ever assembled at Old Trafford, the attendance being 31,116 against 28,334, the record set up by the same attraction in 1920.

Gloucester report a wretched season financially—all "gates" down and only one match—v. Oxford University—unaffected by rain. But members' subscriptions show an increase on last year. Somerset describe the season as being disastrous in the matter of match receipts. Only two of their home games have escaped the summer's heavy rain.

"At a most conservative estimate," says Mr. A. F. Davey, the Somerset secretary, "we have dropped £1,200 in 'gate' money—a large amount for this club."

Derbyshire have had the same unhappy experience on match days, receipts are roughly £800 down, and the debt of £850 is expected to grow into a matter of £2,000.

Hampshire's two weeks at Bournemouth, where Lancashire and Warwickshire attended in July, and Notts and Essex during the past ten days, were expected to produce approximately £1,000 in revenue, but the skies turned them into a financial failure. These four matches have not even paid home expenses, and the effect is considerable upon a country club unable to tap any great industrial population.

WARWICKSHIRE'S £3,000.

No county has suffered more severely than Warwickshire—£3,000 down on the season—and the Executive Committee of the club have decided to recommend to the General Committee that a subscription list be opened as soon as possible with the object of raising this amount.

The experience of the club has been ghastly. They have had thirteen matches at Edgbaston. Of 39 days, ten have been completely blank, and eleven have been seriously interfered with. Of the remaining 18 there was scarcely a day when the country were favoured with cricket weather.

Yorkshire, like other counties, have found the season treacherous. Fortunately subscriptions have advanced by £1,000, so that the result of the season should not be unfavourable, although in mid-June match receipts had fallen by £2,400.

Their neighbours in Lancashire have had worse weather, and in view of the rally in membership—expected finally to surpass the existing record of 3,642 in the Diamond Jubilee season—must return what will be regarded officially as a very disappointing balance-sheet.

To blank days there has been added the annoyance of tedious waits during bright sunshine for the recovery of the wicket—an experience trying to spectators and damaging to future support. Probably there will be strong support, to say the least, from Lancashire and other counties for the suggestion of Yorkshire, in opposing Warwickshire's plea for the reconsideration of the question of covering the wicket during periods of bad weather, for an extension of the covering in width and behind the wicket, and for empowering the groundman, under the supervision of the umpires, to take steps to get the wicket and outfield ready after rain and so expedite play. There are those who would go further

LOST CIVILISATION.

INDIANS WHO SPEAK
ELIZABETHAN ENGLISH.

London, August 21.—Traces of a tribe in the forests of Panama speaking Elizabethan English, and an island rich in the relics of a lost civilisation, are claimed to have been discovered by the Scientific Expeditionary Research Association, which left Dartmouth last April in the yacht "St. George."

The story of discoveries has been brought to London by Lieut. Kealey, R. N., who with Commander Blair had charge of the expedition. Lieut. Kealey arrived in England some weeks ago from Panama, where he left the "St. George." It was here that he discovered what he claims to be authentic evidence of the existence of descendants of the old English buccaners who plundered Panama in the sea-dog days.

One hundred miles from the Panama Canal there exists a tribe of fierce savages, who guard some unknown treasure hidden in their primeval forests. I believe there is a vast hoard of gold there. I know that any white men who have attempted to get past them have been captured and the souls of their feet cut off.

"They have been forced to walk back on the stumps of their legs. I intend to conduct an expedition later to investigate these tribes."

To-day I have received from Commander Blair information about an uninhabited island off the coast of Colombia. Beneath the matted growth he has unearthed relics of some forgotten civilisation that none of the scientists with him have ever heard of.

"There are sculptures monuments to long dead kings with strange hieroglyphs, and pottery and ancient implements of stone. These relics are being shipped over, and are on the way now. They should be here in a few weeks. I believe that we have discovered the key, perhaps, to some of the problems of civilisation that have puzzled us for years."

HURLED TREASURE.

"To land on this island, Commander Blair had to climb a precipice 1,200 feet high. Once over the cliff, the magnitude of the discovery broke on the members of the party with full force. Stretching in all directions were weirdly hewn rocks jutting out of the ground. Pots and urns, buried in thick creepers, were uncovered. There was enough to keep the party busy for months. It is one of the discoveries of the century."

"We have found species of animal and marine life hitherto unknown to science. We have examined the so-called White Indians and found them a myth. We have proved them to be abninos."

The expedition is now at Cocos Island, where nearly a hundred years ago an immense fortune in gold plate is said to have been buried by the crew of a British vessel which had been used as a Peruvian treasure-ship.

The advisory council of the expedition includes Sir Martin Conway, Professor E. S. Goodrich, Sir Frederick W. Keble, Sir Alfred J. Mackinder, Mr. H. N. Ridley, and Professor J. T. Wilson.

The scientists with the expedition include Miss L. E. Cheeseman, curator of insects at the Zoo; Dr. Cyril Crossland, the marine biologist, and Mr. L. J. Chubb, geologist. The passengers include Mr. Alfred Duggan, son of Marchioness Curzon.

and are considering whether the matted wicket can be of service in times of stress.

COOLIE ASPHYXIATED.

"NO ONE DIRECTLY
RESPONSIBLE."

CORONER'S VERDICT.

The desirability of circulating to officers, written instructions regarding measures for the general working of the ship was emphasised by Mr. E. W. Hamilton at the enquiry at the Kowloon Magistracy yesterday afternoon into the circumstances of the death of a cargo coolie who on September 8 was asphyxiated in the No. 2 hold of the s.s. "Tairea." Mr. Hamilton was assisted by Lieut. Commander C. Hake, Assistant Harbour Master.

Mr. R. C. Wadeson watched the proceedings in the interests of the Mackinnon, Mackenzie & Co., the agents for the s.s. "Tairea."

When the evidence was concluded, Mr. Hamilton addressing Mr. Wadeson said that there was conflicting evidence given by the chief officer and the captain. The former stated that he had had no instructions with regard to testing the holds while the master said that he verbally instructed the chief officer on the voyage but gave no written order.

After a retirement Mr. Hamilton gave the following verdict with which he said that Lieut. Commander Hake concurred:

"I find that the deceased met his death by asphyxiation and that it was an accident, for which no one was directly responsible."

"There is no evidence as to whether the instructions in Calcutta of the managing agents, were issued to the master in writing or not, and in the absence of the ship this point cannot be cleared up. I am of the opinion that all such orders which refer to the general working of the ship (that is excluding private instructions to the master) should be put in writing by the master and should be circulated to the officers concerned, and they should sign them. Had this been done in the case of the s.s. "Tairea" the misunderstanding between the chief officer and the master could not have occurred nor could the third officer have been entirely ignorant of the precautions which the company wished taken."

"When the man was overcome, I consider that all the possible steps were promptly taken and that the chief officer and the tinsal (boatswain's mate) showed great courage in attempting to rescue the man without waiting for smoke helmets."

Mr. Wadeson was asked to forward a copy of the Court's finding to the agents at Calcutta.

LOVE AND HATE.

"What is love, mother?" asked a little child.

"'Tis a wonderful delusion, my child, that like the rising vapours is ne'er staid, And sweet it seems, yet ne'er is always mild. Beware, therefore, do not let it get wild, Be discreet, and keep thy feelings secure—Lest spleen, remorse, sorrow, will be thy pile—And a life of pain thou must then endure."

If thou gambest with thy love, stake not all, But keep a part, for thou canst not be sure, Play the game squarely, even if thou shouldst fail—Keep thy head cool, and don't be over-hasty, Else a false move might bring thee bitter gall—And then thou must ever sorrow a memory."

"What is Hate, mother?" again asked the child.

"A tender canker in the mind, my dear, That spreading, into the inmost soul raids, And manifesting, causes many a tear. 'Tis a loathsome, dark Vengeance's compeer—A breeder of spite, and schemer of schemes. 'Tis the sister of Love, if thou must fear, That loving, and not, as it might have been, Take care, my child, see that thy heart is locked Against all hatred; or a love demon, Else thou wouldst find misery at thy mock, Keep thyself aloof from evil thinking; Hate not, nor thy wrath with a harsh tongue talk, For thou canst not know what harm they might bring."

BROTHERHOOD. IS THE WORLD RIPE FOR IT?

The Rev. C. Clouston Porri preaching at the Wesleyan Church last Sunday took as his text:—"Who are My mother and My brothers?" Jesus replied. Here are My mother and My brothers. For wherever there is one who has been obedient to God, there is My brother; My sister—My mother."

Mark 3. 33. 35.

The world is experimenting in Brotherhood, but the most sanguine must confess that world conditions are unfavourable to success. The world is not ripe for brotherhood.

The world has shown itself unripe for the brotherhood of sport! The "Times" special correspondent at the Olympic Games in Paris came to that conclusion. The events have shown that the world is not yet ripe for such a brotherhood. Games served to inflame national animosities rather than allay them.

The world has not shown itself prepared for the brotherhood of nations. Assemblies of the League of Nations may discuss international problems, but while the United States of America stands outside the experiment of an international brotherhood fails. Distrust and suspicion still separate nations.

The religious world has not reached that state of maturity in which a brotherhood of Churches might employ its moral and spiritual energies in the interests of a brotherhood wide as humanity. Lambeth conferences and conversations at Malines remove no denominational differences and effect no union of Churches. A "fatal stumbling block" to practicable reunion exists—the reunion of which a certain section of the Church "dreams is visionary."

Dean Inge. The brotherhood of Christians, rather than the re-union of Churches, appears to us to be the condition necessary to any success in the larger brotherhood movement, whether it be of sport, or churches, or nations.

Evidences of a conclusive nature prove the failure of all experiment made to form world-wide Brotherhoods. The time is not ripe, the world is not ready, the universal family consciousness has yet to be formed.

We admit failure, but the idea of a world-wide brotherhood is slowly, surely and irresistibly entering the collective mind of humanity, it spreads and grows; the ideal glows like a fiery pillar in the darkness of the night. Desire for such a brotherhood wakes in the hearts of nations, imaginations are being captured by the ideal and emotions inflamed by the vision.

The common impression that the idea of a universal family has been recently evolved is not true to fact. The idea has been recovered and appears new. Earlier by a century than Moses Akron, the heretic Pharaoh of Egypt taught the Common Fatherhood of mankind and sacrificed an empire, which he would not defend by force. He preached love, truth and peace—in the desert of the world. Early as the ancient Greek poets, the idea of our common origin existed. Athenian philosophers agreed with the Christian apostles when Paul declared the oneness of the race; "He caused to spring from one (forefather) people of every race."

Jesus taught the brotherhood of man and gave to the idea the validity of eternal truth by revealing Fatherhood of God.

What is happening to-day, however, is that the idea which possessed the minds of thinkers and seers has begun to enter the outer circle of the collective mind and the race consciousness. The ideal of a world brotherhood appears to be less remote, comes within the realm of the possible, and is slowly being transformed into an aim, purpose and goal of achievement. The feeling deepens and spreads that the world must be made safe for brotherhood, otherwise an apocalyptic catastrophe threatens mankind. Experiments may end in failure, progress may be futile and uncertain but men of vision know not haste but patiently wait and trust in God. "The God Who is patient because He is eternal."

Modern brotherhood movements owe their origin and inspiration to Jesus Christ. His teaching and the influence of His Spirit. Doubt may deny the origin but not disprove it. For nineteen centuries the church, in public, and Christians, in private, have been praying for brotherhood. True, it may not have been the intention of those who prayed but it was the intention of their prayer. Jesus taught and men have prayed. "Our Father... Thy Kingdom and Thy Will." Where that prayer is answered and God is known as "Our Father" we attain to that consciousness of Sonship which is real only so far as it issues in the Spirit of brotherhood. The test of our Sonship is obedience to the Will of God; the law of the family is the Will of the Father. "Thy Will be done." Where the Fatherly Will of God rules a family consciousness is created and a spiritual kinship is established. The brotherhood of

the Sons of God through faith in Christ Jesus forms the nucleus of that world-wide brotherhood which is to be and in which the Will of the Father will become absolute. "The Kingdom come, Thy Will be done on earth as it is in heaven."

Our method of approach is by means of an incident which occurred in the family relationship of Jesus, which with startling suddenness illumines for a moment our subject and reveals the possibility of a family relationship wide as humanity. The question we have proposed: Is the world ripe for brotherhood? We answer in a more practical way seeking to show how the world may ripen into brotherhood according to the Will of God and the teaching of Jesus.

Readers of the Gospels will have noticed with some surprise how rarely reference is made to the family relationships of Jesus. The earliest and latest Gospels are silent about His home life. The four Gospels hint that Jesus was the Misunderstood; the incomprehensible to His family and neighbours. His relatives thought Him mad and His neighbours sought to kill Him. It was to the Nazarenes He said "There is no prophet without honour except in his own country, and among his own relatives and in his own home."

Jesus had left—the carpenter's shop and had become the wandering Rabbi, attended by a small company of disciples and certain women which ministered to Him of their substance" (Luke 8.1). The relatives of Jesus could not understand their strange prophet, Son and brother. They sought to bring Him back to their family circle. Jesus was attracting great crowds in Galilee by the wonder of His Words and Works. Scribes from Jerusalem began their opposition and attack by charging Him with the use of unholy powers. "By Beelzebub this fellow doth cast out devils!" His family appears among the crowds and seeks to take Him by force. "He is beside Himself," say His relatives and friends. Jesus is sought a second time by His family—they found Him a boy of twelve in the Temple a boy of twelve—

"How is it ye sought Me? Wist ye not that I must be about My Father's business? They find Him a second time surrounded by a great multitude. Wist ye not, He seems to say that I must be with My Father's family? "Who is My mother or My brethren?" And He looked round about on them which sat about Him, and said, Behold, My mother and My brothers."

The incident is thrice told with varying detail and emphasis but with a single purpose viz to teach the lesson of spiritual kinship to Jesus.

The account given by St. Mark is the earliest and the most picturesque. We see Jesus returned from the lakeside where He had preached to the crowds to find the house where He seeks leisure to eat surrounded by a multitude. Among the crowd are His relatives who came to seize Him by force, for they said "He is out of His mind." (Mark 3.20-21). "His mother and His brothers stand outside and send a message to Him to call Him." The crowd "scattered" round Jesus tell Him: "Who is My mother and My brothers?" He answers, "Fixing His eye on the people who were sitting round Him in a circle, He said: "Here are My mother and My brothers! For wherever there is one who has been obedient to God, there is My brother—My sister—and My mother." (Mark 3.33-35).

Jesus disclaims no relationship but claims only a wider relationship. He teaches that the higher kinship is not dependent upon accidents of birth, family and nationality but upon the circumstances of a consciousness of God and a practical recognition of His Rule and Authority in obedience to His Will. A relationship to Him which is not carnal but spiritual. Those who share Christ consciousness of God and His obedience to the Will of God, share also the privileges of the family to which He belongs. Such are the brothers and sisters of Jesus.

The principle of family unity Jesus proposed is eminently logical. Divisions arise from the conflict of wills. Our life is divided when the Will of the Spirit and the will of the flesh conflict—family life: social, industrial, national and international are divided by antagonisms. Jesus teaches that in harmony of wills, obedient to the one will of God, is to be found the principle of order, unity and kinship.

We have said that the Lord's prayer teaches us to pray for the common brotherhood of Man. We understand the petition "Thy Will be done on earth as in heaven" as a family petition. "My brothers, sisters and mother," said Jesus "are those who do the Will of God."

Christian idealists and men of action are working to make the Will of God supreme in Council chambers and the Councils of the nation. They are sitting in accord with the teaching and Spirit of Jesus.

Students of H. G. Wells may compare his doctrine of Goodwill with the spiritual kinship established. The brotherhood of

ment with the teaching of Jesus about God's Will. The Christian believes the two are identical and prays for the coming of the day when the collective will of the race will be formed and brought into harmony with the Will of God. Thus will come not only world-betterment but a world-wide brotherhood.

St. Luke in what is sometimes called the "Gentleman's Gospel" also relates the incident we are considering. He omits many things and softens others. No mention is made of "force," or of Jesus being "beside Himself." The family does not send for Jesus. They appear on the edge of the crowd, eager listeners separate them from Jesus. The crowd pass the word to Him that they are without. Jesus turns to the group around Him, the inner circle of His followers composed of the disciples and ministering women. "My mother and My brother! are these, who hear God's word and obey it?"

We note the variation. The incident follows the parable of the Sower in which God's Word, His message of the Kingdom proclaimed by Jesus is explained.

The principle of Spiritual kinship in the Lucan Gospel is defined as obedience to the Word and the Message of God. Jesus becomes the bearer and interpreter of the Divine Will. He reveals the Mind and the Will of God.

We feel that in Christ Jesus God comes nearer to us, becomes more personal, and that the kinship mediated through Christ Jesus is more intimate and possesses a deeper emotional value.

The brotherhood which exists among those who are obedient to the Will of God, is informed by the Mind of Christ, Who by His life and teaching interpreted the Will of God.

The brotherhood movements which will survive are those which are definitely Christian. The aim of those who labour for the wider kinship should be to so educate men that the collective mind as it develops becomes the mind of Christ and then will follow of necessity a collective will in harmony with the Will of God. To know God as Jesus knew Him is to obey Him.

The incident, which we are examining, is reported also in St. Matthew's Gospel. Variations in its phrasing and characteristic are also found. St. Matthew tells us that Jesus "pointed to His disciples" when He said, "See here are My mother and My brothers." "For whosoever shall do the Will of My Father, which is in heaven, the same is My brother, and sister and mother."

We observe that the conditions of kinship are further defined. In St. Mark the brethren of Jesus are those who obey the Will of God; in St. Luke they are those who hear the word of God and obey it and in St. Matthew they are the children, who are obedient to the Will of the Heavenly Father.

The Fatherhood of God, as revealed by His Son Jesus Christ, holds the secret of the universal family relationship. He Who was most conscious of His Sonship taught that those who shared His obedience shared also His privilege of Sonship; that they were His brothers and sisters. "If any man will do His Will he shall know" and that knowledge includes the full consciousness. The family circle grows and spreads; daily there are being added those who accept the Fatherly Will of God as the rule of their life. Their consciousness of Sonship deepens and with it a sense of their kinship to all the children of God. These form the effective family of God and the nucleus of that world-wide family which is to be.

The prayer which Jesus taught us to pray, should teach us also to live and to labour that "the Will of Our Father, which is in heaven, may be done on earth as in heaven; and that His Kingdom may come," and the brotherhood of man arrive.

The world ripens for brotherhood according to the measure in which the world is being influenced by spiritual forces rather than by prudential considerations. Humanity must become self-conscious of God and recognise in His Will the principle of order, harmony, peace and goodwill. The collective will of mankind must be controlled by the Fatherly Will of God. The collective mind must be informed by the Mind of Christ. The collective self-consciousness of humanity, whenever that may arrive, must be transformed into a universal family consciousness.

Said Jesus: "My mother, brother, sisters are those who do the Will of God; who hear His Word and obey it and who do the Will of their heavenly Father." The family circle which gathered round Him was negligible numerically but that circle has enlarged and is enlarging. The world today with its experiments in brotherhoods of sport, or nations, reacts to that enlarging movement. The Christian idea grows, the ideal glows and the brotherhood of man exists as an aim, a purpose and a goal. The Divine Father wills it. His Son revealed it and died that it might be realised. "In order that He might unite into one body all the far-scattered Children of God."

CHINESE MARRIAGES.

NECESSITY FOR PROPERLY REGULATED CODE.

Singapore, October 11.—Mr. Pryde, District Judge, had an interesting case to decide yesterday afternoon in which a Chinese lady, named Soon Woon-seng, sued her husband, Mr. Ang Kiang-hee for maintenance, Mr. J. Laycock appearing for the wife and Mr. M. V. Pillai for the husband. Mr. Pillai's contention was that the marriage ceremony was under the republican reformed style, and really was no marriage at all. The lady in her evidence stated, in reply to Mr. Pillai that there were no joss sticks in the library, where the ceremony took place in February of last year. She also never saw any red candles burnt. Her husband gave her no present of any kind for the marriage and she did not give him one. His grandmother was not present at the ceremony; her mother was there. She (as bride) did not know either to her own mother or to that of the defendant. The magistrate, in the course of proceedings, commented strongly on the necessity of a properly regulated code for Chinese marriage and observed that a late Chief Justice of the Straits Settlements, Sir John Bucknill, had spoken strongly in this connection. He thought it was a matter for the attention of the Secretary for Chinese Affairs.

Mr. Pillai said that the only thing they relied on as a guide was the Six Widows Case. This marriage, however, was under the Chinese reformed marriage style. Mr. Pillai's preliminary objection was that the Court had no jurisdiction to try the case. It was a sort of action, he thought, that should be tried by the Supreme Court.

Mr. Laycock contended that if that objection prevailed then any defendant of the Chinese or Hindu races had only got to come to Court and say there was no marriage and then the jurisdiction of the Court would be ousted; and the complainant would have no remedy. There were two questions, firstly, whether the reformed style of marriage would be a valid marriage according to the law of China and, secondly, even if valid according to the law of China it would be in the Straits Settlements. The requisites of a valid custom in the Straits Settlements were the same as the requisites of a valid custom in England, namely certainty, reasonableness and immemorability. In the present case, of course, it could not be said that this custom was immemorial as the new form of marriage had only come into practice during the last few years.

The Magistrate said he would reserve his judgment on the preliminary points as to whether he had jurisdiction to hear the case.

Yarns.—Demand of a practicable kind is far from extensive, although bundles are meeting with a better inquiry, and are wanted for both India and China shipments.

Owing to the continued short time in the spinning industry deliveries are becoming very extended, and a great deal of business has been missed on this account.

Cloth.—The market is again plentifully supplied with inquiry, but while manufacturers give out prices freely they are not meeting with any substantial response in the shape of workable business.

The bearish reports which come to hand from America, and the consequent further easing off in the futures market are causing buyers to hesitate.

Calcutta, Madras and Bombay of the Indian markets have been noticeably interested, and have placed a fair amount of business. China demand is slow, but not wholly negligible, and grey shirtings have been put down for the Straits. Java operates very slowly.

South American market appears to be busier than they have been, and the goods that have met with most success include: satteens, velvets and heavy goods generally. The home trade has not acted to any extent, but small business has been done in a variety of cloths.

PIRACY SUPPRESSION.

SUCCESS IN CHINESE WATERS.

Ever since the outbreaks of piracy were reported in Chinese waters the Imperial Merchant Service Guild has done all that was possible in bringing pressure to bear upon authorities both at home and abroad to assist in the suppression. Not only has this course been taken, says the "Journal of Commerce" of September 16, but very considerable time and thought have been given to devising methods which would prove of the most value in dealing with attacks. These attacks have been of such a nature that it has been practically impossible to guard against them save by the exercise of extremely intricate measures, but it is very satisfactory to know that these energetic efforts have met with very great success, which has been thoroughly appreciated by those serving on the China Coast.

In the course of a letter on the subject recently received from the China Coast Officers' Guild it is stated:—"It is noted with gratification the efforts put forward by the Imperial Merchant Service Guild through its Parliamentary representatives, and also via the medium of the Press, with a view to the mitigating of the piracy evil, for which endeavours my committee and members are deeply appreciative. That the pressure being brought to bear is productive of results is evidenced by the fact that no piracies on British vessels have occurred within the last three months, but still whilst being optimistic, an immediate absolute cessation of these outrages cannot be hoped for, having in mind China's hopeless muddle and her masses of unpaid soldiers who must live if they are not to starve."

Of course, it is quite impossible, whatever precautions be taken, to prevent the outbreak of banditry in a country so disorganised as is China at the present day, and the war which is now taking place between rival factions in that country may lead to still greater troubles, unless adequate precautions are taken. However, the concentration of warships of many countries which that war has brought about may prevent further attacks, or it may be that the bandits themselves will find more congenial and remunerative occupation as members of the opposing factions, more especially as the piratical attacks upon ships have become less and less remunerative whilst the danger has considerably increased.

FRANCE AND RUSSIA.

(Reuter's Service.)

Paris, October 13. "Le Journal" reports that the note drawn up by the Commission on the question of the resumption of relations with Russia, in a very brief way outlines a vital system for international trade to take up the reorganisation of Russia's foreign trade, while assuring as far as possible the gradual liquidation of her liabilities. It describes this as the application of the Dawes principles to the solution of the Russian Debt problem.

TEA AND RUBBER.

SINGAPORE FIGURES.

(Reuter's Service.)

Singapore, October 16.

At a meeting of Messrs. Harrison, Crossfield, Ltd., under the chairmanship of Mr. Eric Miller, it was estimated that the tea production for the current year would be 4708,000,000, and the consumption 4794,000,000, increases of 49,000,000 and 233,000,000 respectively as compared with 1923. The increase in consumption is chiefly at home. Mr. Miller did not see any possibility of a large increase in production for some years to come.

The estimated consumption of rubber for 1924 is 495,000 tons, five times as much as in 1910. He defended the restriction scheme and believed the world's consumption in 1925 would increase to 450,000 tons, of which non-restricting areas might supply 199,000 tons leaving 250,000 tons to be supplied from the restricting areas.
